

Dylan Goddard

Coatings Performance Specialist

* * *

Coatings Professional with over 26 years of marine industry experience overseeing fleet hull protective systems, inspection programs, and coating selection to optimize durability and lifecycle performance. Highly experienced in international coating inspection standards (AMPP, FROSIO, ICorr, SSPC), with a strong track record in leadership, project administration, workplace safety, and stakeholder collaboration to deliver projects on time and within budget. Focused on strengthening fleet resilience through data-driven coating strategies, training partnerships, and continuous improvement initiatives, with extensive international experience across Asia, the Middle East, and European ship repair and shipbuilding and Ship Repair markets.

EMPLOYMENT HISTORY

Coatings Performance Specialist

Seaspan Ship Management (Corporation), Vancouver BC, Canada — Oct 2023 - Present

- Coordinates with shipboard engineers and vendors to schedule surface preparation and recoating, minimizing downtime and ensuring compliance with operational timelines.
- Evaluates new marine coating technologies and compiles feasibility assessments, guiding procurement decisions to achieve marked gains in durability and lifecycle cost control.
- Implements inspection-driven corrective actions for corrosion-prone areas, improving structural protection and reducing recurrence through targeted material selection and procedures.

Founder - Principal Consultant

DG. Goddard Inspection & Consulting, Vancouver, BC Canada — 2023 - Present

- Led AMPP, FROSIO III, ICorr III and SSPC-certified coating inspections to ensure compliance and extend service life, producing measurable asset condition reports.
- Advised owners on long-term protective coating strategies by translating inspection trends into actionable asset-management roadmaps with measurable results.
- Established corrosion-mitigation roadmaps that aligned inspection insights with maintenance budgets to support sustained asset availability and planning.
- Advised clients on strategic corrosion management by aligning inspection findings with long-term maintenance budgeting to inform investment decisions.
- Coordinated operations, engineering, and procurement to convert inspection findings into prioritized work scopes, accelerating execution and clarifying responsibilities.

Business Development, Contract Training Specialist

Camosun College, Victoria, BC — Apr 2023 - Oct 2023

- Developed and delivered customized industry training programs across Vancouver Island, producing measurable results for employer partners.
- Designed tailored contract-training proposals for regional employers, aligning course content with workforce needs to increase employer engagement and training uptake.
- Assessed local labour-market feedback and employer skill gaps to prioritize program offerings, driving focused curriculum development and stronger employer alignment.

Paint & Labour Superintendent

Seaspan ULC, Victoria Shipyards Co. Ltd., Victoria, BC — 2021 - 2023

- Managed all paint and labor operations for Victoria Shipyards, ensuring timely completion of vessel coating programs.
- Implemented preventive painting schedules across ship sections, reducing rework and extending coating life with measurable results.
- Developed and enforced inspection checklists at handover to detect coating defects early and maintain consistent quality standards.
- Coordinated workflows with welding and scaffolding teams to resolve access bottlenecks and accelerate project phases.
- Managed material staging and supplier handoffs to streamline paint application flow and improve on-time delivery rates.

Senior Supervisor, Paint & Labour

Seaspan ULC, Victoria Shipyards Co. Ltd., Victoria, BC — 2012 - 2021

- Responsible for the overall success of a variety of drydocking projects, including major naval projects, commercial refits. Liaise with Project Managers and Trade Superintendents to plan, schedule, and execute production targets and required resources to support each project. Directed daily labor allocation and shift sequencing to meet project milestones, ensuring steady progress and timely handovers across trades.
- Facilitated cross-discipline briefings between trades and suppliers to resolve interface issues, accelerating turnaround and improving team alignment.
- Monitored material usage and application rates, identifying inefficiencies and adjusting procurement practices to realize noticeable resource savings.
- Enforced surface-prep and coating standards through spot inspections and corrective coaching, sustaining long-term coating performance and compliance.

Program Instructor SRELT- Ship Repair Entry Level Training Program

Camosun College, Victoria, BC — 2016 - 2025

- Assisted with course development and delivery for theory and practical hands-on knowledge in Ship Repair Industry. SRELT was designed for and supported by Seaspan, Camosun, CSETS, and local Indigenous partners. This partnership resulted in direct employment of local nations while establishing lasting relationships from all over Vancouver Island.

Program Instructor-Surface Preparation and Maintenance Coating Ship Repair

Camosun College, Victoria, BC

- Developed, planned, and scheduled cohort. Successfully delivered valued training to industry stakeholders.
- Designed hands-on lab modules for surface prep and coating applications that improved learner competency and reduced rework in practical assessments.
- Partnered with shipyard supervisors to align training with operational needs, ensuring graduates met on-the-job process and safety expectations.

Supervisor / Chargehand

Seaspan ULC, Victoria Shipyards Co. Ltd., Victoria, BC — 2009 - 2012

- Coordinate with Trade Supervisors / Charge Hands to plan, schedule, and delegate day-to-day production tasks.
- Supervise up to 30 employees and facilitate daily safety briefings
- Monitor project milestones and daily production goals; conduct in-process quality control inspections
- Complete surface preparation and coatings inspections with the use of calibrated inspection instruments

Industrial Marine Blaster/Painter

Seaspan ULC, Victoria Shipyards Co. Ltd., Victoria, BC — 2000 - 2009

- Abrasive Blasting and operate hand / power tools in accordance with SSPC/NACE surface preparation standards
- Apply Coatings by Brush, Roller, Airless, Conventional applications
- Remove Hazardous Lead based coatings
- Install and operate Vec Loader vacuum systems.
- Install and operate Dust collection systems by structure dimensions and area.
- Install hoarding structures and containment to ensure environmental standards are achieved.
- Prepare interior, exterior nonslip, seamless decks for repair and resurfacing.
- Pre-Cleaning by Pressure washing, steam cleaning, solvent wiping.
- Operate Ariel work platform, scissor lift, forklift as required.

PROFESSIONAL DEVELOPMENT

Marine Supply Chain and Logistics Micro-credential

Royal Roads University, Victoria BC, Canada — Feb 2026 - Jun 2026

Leadership Development Certificate

Camosun College, Victoria BC, Canada — Apr 2019 - Oct 2019

Elevated Project Management

Gustavson School of Business — 2022

Truth and Reconciliation In Action Micro-Credential

Camosun Coastal Centre — 2022

Building Relationships with Indigenous People

Camosun Coastal Centre — 2018

KEY PROJECTS & ACHIEVEMENTS

Key Projects & Achievements

- Implementation facilities and process to support NSS NEW Build Pipe/Foundations Blast and Coating Operations at Seaspan.
- Redesigned Potable freshwater Linings application process on Canadian Frigates. Ensuring quality control pass/fail criteria.
- Developed and implemented detailed QC/QA database on SharePoint to capture project data and lessons learned to be applied as a valuable resource for planning future projects.
- Managed surface preparation and coating application schedules for Canadian Naval and Commercial Ship Repair Projects.
- Achieved an excellent track record for environmental and safety compliance. Continuously striving for improvement.
- Enhanced specialized knowledge of production sequencing on Commercial and RCN Naval Drydocking projects.
- Designated Senior Supervisor for TOTE LNG conversion of MV North Star in 2018 & MV Midnight Sun in 2020.
- Successful planning and execution of HMCS OTTAWA DWP Labour support and docking dependent schedules.
- Team Leader for Commercial projects applying SKINNY model when resource loading for Commercial Ship Repair contracts.

Committee Participation & Professional Affiliations

- AMPP BC Chapter: Chairman (BC, Canada) (2023-Current)
- AMPP Ambassador: Ambassador (BC, Canada) (2023-2025)
- Marine Mentorship program: Successfully completed Mentorship program (2022)
- Safety Absolutes Core Team Member: Member, with quarterly progress meetings (2019-2023)
- High Angle Rope Rescue Team: Member, with quarterly practice session (2013-2023)
- Confined Space Entry & Rescue Team: Member with quarterly practice session (2004-2023)
- Spill Response Team: Member, with quarterly practice sessions (2004-2023)

Security Clearances

- Controlled Goods Clearance
- Transport Canada Reliability Clearance
- NATO Canada Clearance

VALUE ADDED

Workplace Safety	Leadership	Project Administration
Relationship-building	Quality Control / Assurance	Project Management
Continuous process Improvement	Inspection Standards	Training Development
Coatings Performance Strategy	Performance Data Analysis	Fleet Management

HOBBIES

I am committed to staying connected to the marine and industrial coatings community through volunteering as the AMPP BC Chapter Chair. I also prioritize physical fitness and overall well-being, and enjoy spending time outdoors fishing, as well as traveling to experience new environments and cultures. These interests reinforce a disciplined and resilient mindset, foster adaptability, and support a balanced, active lifestyle both professionally and personally.
